

TWENTY YEARS AND STILL FIGHTING

“The support the Avera Race offers to people and families dealing with cancer is awesome.”

JUDY VAN OVERBEKE

SURVIVOR SINCE 1995

Judy fought cancer one day at a time, trusting in God and with support from a loving family. Judy is a wife and mother to two daughters. She says her husband was her hero during her treatment—supporting her with compassion and understanding. Judy believes that support is critical to beating cancer. She encourages others who are going through treatment to take one day at a time and choose to hope, saying “a positive attitude is the only choice.”
