

Florence Holton is a South Dakota native and has been a breast cancer survivor since 1980. "Medical science has made so much progress in the last few years," Florence said. "We are so fortunate to have such good facilities and well-trained staff so close to home." She credits a fighting attitude and an Irish sense of humor as important parts in her recovery. "I found that a positive outlook fostered easier communication with my family, friends and my doctors."
