

The Careflight Service Area

Careflight medical flight crews maintain constant communication with emergency department physicians and trauma teams. Every Careflight patient is in a virtual trauma center while still in the air.

Expert Flight Team

Careflight provides expedited emergency coverage throughout the Avera footprint. All patients get the best possible care throughout the flight from Avera's expert flight teams who specialize in caring for patients in these areas:

- Burns
- Cardiology (Cardiac Balloon Pump)
- Medical/Surgery
- Neonatology
- Neurology
- Obstetrics
- Pediatrics
- Trauma

In An Emergency

When life-threatening illness or injury strikes, every second counts. Emergency transport may be critical to survival and recovery. In a region with a large, widely rural population, rapid emergency transportation is essential.
