

DIRECT LABS

Affordable, accurate, accessible

Osceola Community Hospital Direct Labs gives you access to affordable and confidential laboratory testing without a provider visit. All testing is done by our federally licensed advanced Laboratory.

Direct Labs is a helpful tool to monitor certain ongoing risks or to check potential health risks. These tests should not be used to substitute regular provider visits.

Availability

Direct Lab appointments are available by calling OCH scheduling department at **712-754-5304**. Same day appointments may be available. Appointments are not available on weekends and holidays.

Payment

Payment to the Osceola Community Hospital business office at the time of service is required. Medicare, Medicaid or insurance will not be billed.
