<b>Things to help me feel calm:</b>			
Limit the number of people in the room.	Keep the noise level low.	Lower the lights.	Play calming music.
Imagine myself in a calm place.	Practice my calming breathing exercises.	Learn about and control my anxiety triggers.	Seek support. Talk to someone when I feel overwhelmed or panicked (friends, family member, therapist, clergy member, etc.). Tell them how they can help.
Get a healthy amount of sleep, stay active and eat a well-balanced diet every day.	Take my medicines as prescribed. Don't stop taking or change any medicine without talking to my doctor about it first.	Other ideas:	<b>COVID-19 Stress Hotline Call: 211</b>
