

COVID-19 Vaccine Clinic

The vaccine will be offered in the hospital's south commons area. The south commons is the former cafeteria on the ground level of the "old" hospital building on Dakota Avenue. **Please park in Parking Lot F and enter through Door 8, the handicap entrance off Washington Avenue.** A screener will greet you at the door. Staff will direct you to the vaccine clinic.

Remember to wear short sleeves and a mask, and plan to practice social distancing.

Thank you for partnering with Avera.
